With a tax system that is the same inside and outside the country, all price actions will result in the same rewards.

### Abstract

FinCoinCash is cryptocurrency that rewards its users in \$BUSD, a Crypto Pegged one-to-one with the USD. This single feature is so important that it makes FinCoinCash a front runner among all the cryptocurrencies. Holders of FinCoinCash coin get rewarded in Binance Pegged BUSD. With every transaction, a small percentage of tokens are automatically transferred to the PancakeSwap liquidity Pool. FinCoinCashCoin also maintains a buy-back reserve from where the tokens are converted into BNB and securely locked and stored in the FinCoinCash contract. The MoonShot buyback and AutoBoost buyback systems work to maintain the smooth flow.

# The FinCoinCashCoin Protocol

On the Binance Smart Chain (BSC), FinCoinCash Coin is the next generation of the reflection token: the Binance Pegged BUSD reflection token to optimize user's profits both now and in the future. Simply by holding \$FCC tokens, users will receive an 5 percent return in Binance Pegged BUSD for each transaction, which will automatically be transferred to the wallet every 60 minutes.

FinCoinCash coin has a total supply of 1,000,000,000 \$FCC. Out of the total \$FCC coins, 40% will be transferred to pre-sale and initial liquidity. Further, 50% of tokens are sent to the burn address, 5% to the founders and the team, and finally, 5% of the total initial tokens are airdropped.

5% of every buy/sell is redistributed to all holders IN Binance Pegged BUSD, which is auto paid every 60 Minutes

2% of every transaction is transferred into Liquidity Pool for Pancakeswap to create a stable price floor

3% of every transaction is transferred into Smart Contract for Strategic Buy-Back Reserve

## Community

FinCoinCashCoin is one of the fastest-growing and most beloved communities in cryptocurrency. We believe that community is essential, and FinCoinCash tries to involve people from all around the world. We will soon offer specialized telegram channels for our foreign community.

## Longevity

FinCoinCashCoin is here to stay. The decentralized community encourages and embraces long-term ecosystem and foundation development to generate genuine use cases and higher benefits than any ephemeral fad. Binance Smart Chain (BSC) was created to enable the use of solidity-based smart contracts at a significantly faster and more efficient rate than other competing chains. With decentralized exchanges on BSC providing lightning-fast transactions and ultra-low costs, BSC has begun to establish itself as one of the most frequently utilized blockchains for Decentralized Finance (DeFi). BSC makes use of the BEP-20 token technology, which the BinanceTeam created. It is a proprietary blockchain that ensures the security and privacy of all users and developers. Its inherent dual-chain interoperability enables cross-chain communication and scalability of high-performance decentralized applications (dApps) that demand a quick and fluid user experience. It is EVM compatible and will support all current Ethereum tools and faster and more affordable transactions. Based on the Proof of Staked Authority consensus, its on-chain governance would allow decentralization and substantial community participation via the use of 21 validators that verify transactions.

Which when enabled purchases \$FCC directly from exchanges and removes the purchased tokens permanently from circulating supply while simultaneously making green candles on the price chart. 50% of Tokens were burnt.

### **Liquidity Pool**

2% of every transaction is converted into liquidity for PancakeSwap. Pancakeswap fixes the low liquidity problems of DEXs through the liquidity Pool mechanism. A liquidity pool always contains a pair of tokens, which you can trade. Our Smart contract deposits 2% from every buy/sell transaction as \$FinCoinCash and \$BNB into a liquidity pool. At the same time, 1% from every transaction is allocated to Marketing to fuel the most ambitious projects in our Ecosystem and reward the active community.
